How to download your rhinestone template

Thank you for your order! Your files are waiting for you.

1. Go to the PatternNifty download page:
   patternnifty.com/download

2. Enter your PatternNifty code.
   It is the code you put in the Personalization field on Etsy, for example PN-7K3Q-9XPA.

3. Tick the box and click Download ZIP.
   You get SVG, production sheets (PDF), AI, EPS, DXF and PNG, at your design's natural size.

Payments usually appear within 10 minutes of checkout; the download page checks again automatically. Your files can be downloaded for 30 days after payment.
